Elam International Pvt. Ltd

Elam International, one of the leading business groups of the region, incorporates multiple fields under one roof. Ei has developed a pro-active and professional range of businesses and entities that value our stakeholders, strategic partners, investors, and the Ei team as a whole. Our operations transcend across numerous business segments including Information and Communication Technology, Construction and General Contracting, Distribution, Electronics Repairing Workshop, Trading, Logistics, Fashion, Manufacturing and Education.

Building strong partnerships underlies Ei's success. Ei's robust and empowered management team makes it distinct and affordably flexible when it comes to the requirements of businesses. Ei holds diversity, together with many expertise and skills, having a team technically and administratively qualified, endeavoring for excellence in what they do, by delivering the best standards.

Ei as a group, including different companies, has delivered multiple projects in their respective fields. The government, banking, national switch, health, education, International NGOs, private businesses and telecommunication are the major sectors we have served in IT. In construction, we have worked for Afghanistan National Army, ISAF, GOA, USG, USACE, NATO, US Navy and RS in large scale projects. We provide travel and tourism, as well as Real Estate Services in Turkey, Brazil, Russia, India, Malaysia, UAE, Saudi Arabia, Oman, China, Thailand and Philippines. Our fashion trading includes branded ladies and gents wears from different countries in commercial market, as well as a well-equipped factory for production of uniforms and outfits. Ei has developed standard strategies and implementation criteria to deliver quality and excellence in all the projects. We maintain our standards, along with initiating new business opportunities for the investors who seek new paths for investing in the region.
